SHARPER IMAGE®

COOLING CAR SEAT CUSHION

Item No. 204497

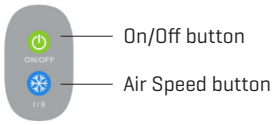

User's Guide

Thank you for purchasing the **Sharper Image Cooling Car Seat Cushion**.
Please be sure to read this Owner's Guide before use, and save it for future reference.

FEATURES

- Built-in fan
- 24 cooling vents
- Elastic straps
- Easy-to-reach controls at thigh level
- Durable construction
- Dual storage pockets
- Includes 12V DC car adapter

GETTING STARTED

- Carefully remove the Cooling Car Seat Cushion from the packaging.
- Position the Cooling Car Seat Cushion on your car seat. Connect the 12V DC car adapter to the connector coupling. Then, plug the adapter into your vehicle's 12V DC outlet (a.k.a. the cigarette lighter).
- Press the ON/OFF button on the side of the cushion. Note: the default fan speed is "I" (high). Press ON/OFF a second time to turn off the cushion.
- To change the fan speed, press the I/II button — "I" is high speed and "II" is low speed.

STORAGE AND MAINTENANCE

- This product is non-overload.
- When the cushion is not in use, turn off the power and unplug the adapter.
- Store the cushion in a clean, dry location.
- Do not store this product near heat or open flames.
- Clean with a clean, dry cloth.

CUSTOMER SERVICE
