

DRIFTER

Bring your music, Leave your phone

Hey Rockstars,

You're holding in your hands the future of music. Drifter is the world's first outdoor action speaker with a brain, which means it goes with you wherever without ever missing a beat.

Find your favorite music streaming apps and you're ready to go, with your playlists, your albums, and your songs!

But it's more than just music. Drifter's integrated Android operating system give you Netflix, Hulu, and thousands of other media apps.

We're excited to see where you go and what you do with it. Use the intergrated camera to send us a picture or two showing where you're taking your music.

Team Drifter

Set-up

01 Fully charge Drifter

Attached Drifter to either a USB port on a computer or a stand-alone USB power converter. The red light on the upper left of the screen should illuminate while the device is charging. Once fully charged, the light will turn off.

02 Turn on Drifter

Once the device is fully charged, firmly hold down the power button for four seconds. Drifter will turn on. After the bootup video, Drifter is ready to go.

Connecting to Wifi

01 Go to Home Screen

Press the Drifter icon  to go to the home screen.

02 Go to Settings

Press the Apps button  on the right side of the screen. Press the Settings icon.

03 Turn on the Wifi

Press the Wifi switch to turn Wifi search on. Select the Wifi category button to view the available network.

04 Select network

Click on the name of the Wifi network you want to connect to. If the network requires a password, supply it now.

Installing New Apps

01 Go to Home Screen

Press the Drifter icon  to go to the home screen.

02 Go to Play Store

Press the Apps button  on the right side of the screen. Press the Play Store icon.

03 Create an Account

If you have an existing Google Account, log in now. If not, create one, either now by pressing "New" or by going to accounts.google.com and log in here.

04 Search or Browse

Search or Browse for the apps you're interested in. Click on the App and select **INSTALL** and **AGREE** to the terms and conditions.

05 Add to Home Screen

App will download and install in the background. Once complete, the App will appear in the Apps Screen. To add to the home screen, click and hold the app for a few seconds. Drop the app into required position.

Note: Drifter must have an active wifi connection to browse and install new apps.

Connecting Bluetooth

01 Go to Home Screen

Press the Drifter icon  to go to the home screen.

02 Turn on Bluetooth

At the bottom right of the screen, turn the Bluetooth switch to ON. If the switch is already on, turn the switch to OFF and back to ON to enter pairing mode

03 Connect to Phone

Make sure the Bluetooth function on your phone or other device is set to ON and that it is actively searching for new devices. Drifter should appear in those new devices.

Click Drifter to connect to your phone. In the future, turning on Drifter's Bluetooth functionality should autopair Drifter to your phone whenever both devices are in range and have Bluetooth activated.

04 Change Media Source

Make sure the Media Source button  shows Bluetooth as the media source, rather than the internal sound coming from Drifter.

Photos & Video

01 Open the Camera App

Press the Apps button  on the right side of the screen. Press the Camera icon.

03 View Photos & Video

Swipe from right to left in the camera app to enter Gallery mode and view photos & video.

02 Take Photos

Use the camera app to take photos and video. Photos and video are saved on Drifter's internal hard drive.

Change Settings

Take Photo

Camera/Video/Panorama

BACK

Go back to previous screen

HOME

Go to the main home screen (Doing this does not close the current app)

VIEW ALL APPS

See all open apps as a cascade. Close apps by swiping up.

MEDIA SOURCE

Change sound input between external Bluetooth and Drifter's internal sound

BLUETOOTH

Turn Bluetooth on and off. Also used to enter Bluetooth pairing mode.
