

Wireless Wall Switch

The Xodus Wireless Wall Switch is designed to mount on any wall and blend in cosmetically to look like a normal wall switch.

- Easy to install – Switch mounts anywhere with no wiring
- The low profile and dimensions make it virtually the same size as a standard decorative wall switch.
- Long life lithium batteries and improved electronics provide for longer life and more consistent performance.
- 4 channel selection to prevent interference or build a compatible system
- Works with LED bulbs
- HW2165 – Wireless Pull Chain Socket Switch
- HW2175 – Wireless Switched Outlet
