RC BUMPER CARS

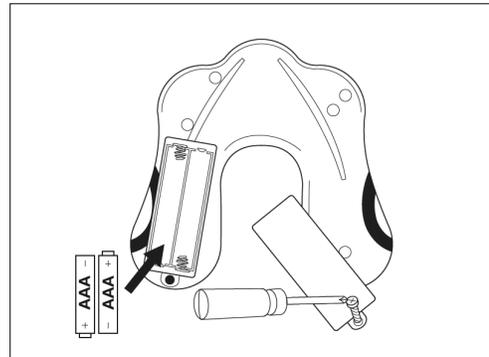

Item No. 206181-01

User's Guide

Thank you for purchasing Sharper Image RC Bumper Cars.
Please take a moment to read this guide and keep it for future reference.

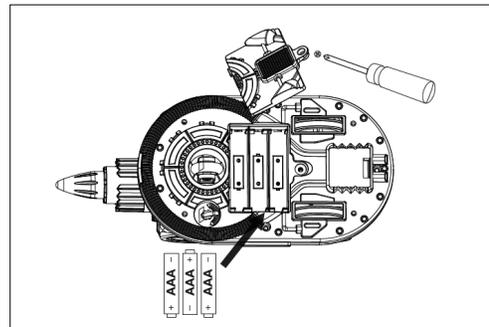

REMOTE CONTROL BATTERY INSTALLATION

1. Unscrew the battery cover on the bottom of the remote with a Philips head screwdriver.
2. Install 2 AAA batteries with polarities as shown inside the battery compartment.
3. Replace the battery cover and screw into place.

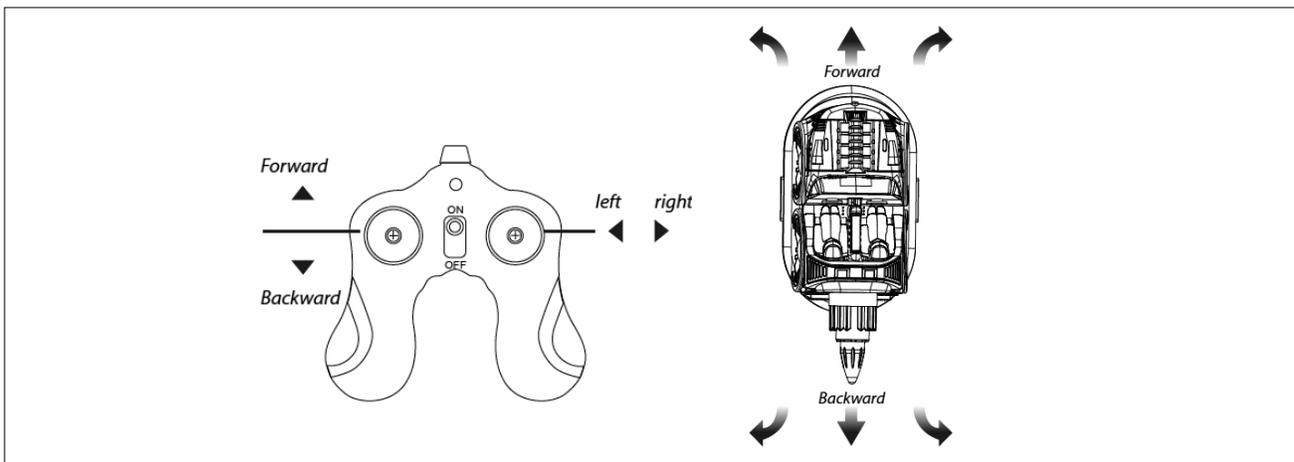

BUMPER CAR BATTERY INSTALLATION

1. Unscrew the battery cover on the bottom of the car with a Philips head screwdriver.
2. Install 3 AAA batteries with polarities as shown inside the battery compartment.
3. Replace the battery cover and screw into place.

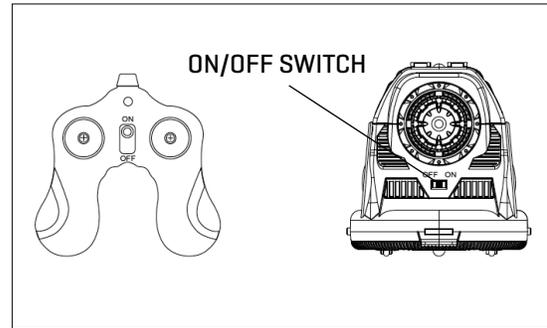

HOW TO OPERATE RC BUMPER CARS

START YOUR ENGINES!

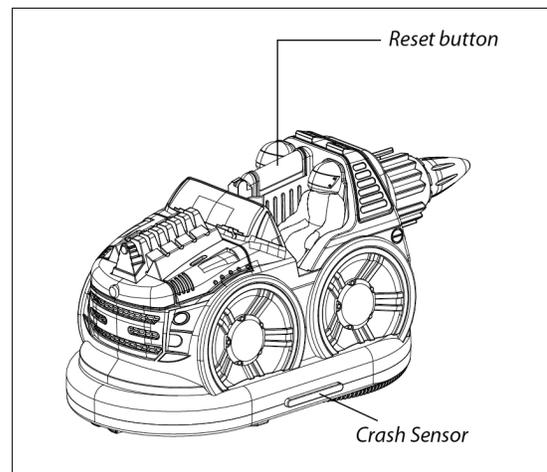

1. Select a controller and the matching car.
2. Turn the power switches of the controller and the car to the ON position at the same time.
3. Your car should be functional.
4. Now, repeat this process for the opposing car and controller.

NOTE: If the vehicle is not moving, turn the power switches of the controller and the car OFF, and wait 10 seconds for the internal computer to reset. Then, attempt to re-start the vehicle as described above.

PLAYING THE GAME

1. The object of RC Bumper Cars is to hit your opponent's crash sensor three times.
2. When a car sustains three direct hits, it shuts down and the round is over.
3. Press the RESET button in the car's cockpit to start over.
4. When you are finished playing, be sure to turn all power switches to the OFF position to conserve battery power.

WARRANTY / CUSTOMER SERVICE

Sharper Image branded items purchased from SharperImage.com include a 1-year limited replacement warranty. For customer service, please call 1 (877) 210-3449.
