REMOTE CONTROL
INSTALLATION INSTRUCTIONS

1. Remove the shortest pole inside the fiber rod into the base of the upper tube.

2. Insert one end of the tee joint into the port of the fiber rod in Figure 1.

3. Insert one end of the fiber tube (which is the same height as the projection screen) into one end of the tee connection.

4. Take the fiber rod out and connect with the other rod (two pairs).

5. Insert the fiber rod (pictured in Figure 4) into the end of the tee joint (pictured in Figure 3.)

6. Insert the two-way connection into the upper fiber rod (pictured in Figure 3) and insert the other end into the fiber rod end (pictured in Figure 4).

7. Pull the curtain back along the fiber rod and the spring of the rope and through the curtain of the metal ring binding in the curtain bracket above. Adjust the curtain if it is uneven.

8. Installation complete.

HOW TO CONNECT TO THE SPEAKERS

Insert your USB (not included) into the USB slot to enter the video menu for selecting songs.

Connect the mobile MHL interface to the HDMI output. Note: cables are not included. Some phones do not support MHL.

Connect a HDMI cable (not included) to your computer’s HDMI interface to share the computer’s screen so media will play on the projector.
