INTRODUCTION

Thank you for purchasing the Smart Teaching Ukulele (also known as Populele) from Sharper Image. Please take a moment to read this guide and store it for future reference.

The Smart Teaching Ukulele is a high-tech update of the classic concert ukulele, with a light-up fretboard to show you where to place your fingers. A Bluetooth connection pairs with your smartphone to listen in and track your progress. A downloadable free Populele app for interactive learning games that make music fun. When you outgrow the app, this high-quality instrument can be played and enjoyed by itself for years to come.

FEATURES

- Concert-size, suitable for all ages and hand sizes
- 72 built-in LEDs show you where to place your fingers
- Plywood body with spruce (picea) and maple veneers
- Maple bridge
- Pre-strung with premium Aquila strings from Italy
- No-tie bridge makes it easy to change strings
- Geared tuning machines help maintain proper tuning
- 18 frets
- 14" scale (distance from nut to bridge)
- Strap buttons </p>
- Operates about 10 hours on a full charge

User's Guide

---

Connect to the Populele via Bluetooth

1. Download the "PopuMusic" APP in the Apple/Google Store, install it and enable Bluetooth on your phone.

2. Press and hold power button for 4-5 seconds on the side panel of Populele. If the LED lights flash in a dazzling mode, the Populele has started up successfully.

3. Open the "PopuMusic" APP, complete the registration and login.

4. Select the instrument you have, then tap "Bluetooth Connection" inside "Music Tools" and wait. If the Populele is found, a little guitar will appear on the screen.

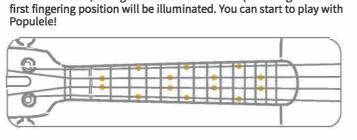

5. Tap the little guitar, then "Connected" will appear, which indicates that the Populele is connected via Bluetooth successfully.

6. Once connected, the lights on fretboard will stop flashing and the first fingering position will be illuminated. You can start to play with Populele!

Frequently Asked Questions

1. Why I cannot have my Populele connected?

1. Please make sure that Bluetooth connection is done through the "PopuMusic" APP instead of Bluetooth settings of your phone.
2. Please make sure that your Populele is turned on. Press and hold the power button for 4-5 seconds to turn on Populele.

   Then open the APP to connect via Bluetooth once the blue light of control box is on. When Populele is not connected, LED lights on fretboard would flash in a dazzling mode.
3. You can make a quick press on the button to see the battery level of your Populele, and if there is only one LED flashing, you should charge your Populele. (USB cable comes together with Populele. Charging adapter is not included. Compatible with regular smartphone charging adapter.)
4. If you are using Android devices, please turn on GPS and allow "PopuMusic" APP access to it. (The requirement of Android system)
5. Please check whether the Bluetooth channel is in use by earphones or speaker, disconnect them, and try to connect to Populele again.

2. Why the APP cannot accurately recognize my playing?

1. Please check whether you allow APP access to phone microphone, the APP can recognize the sound only when this funtion is enabled.
2. Make sure that you have tuned your Populele before playing.
3. Sound recognition is performed by the sound pickup element in your phone. Please play in a quiet place for better game experience.

*Safety Precautions:

1. Store Populele in a well-ventilated place. Avoid locations subject to high temperature or humidity. Avoid long time direct sunlight.
2. Do not disassemble any electronic parts to prevent damage to the Populele circuit.
