

## GAME INSTRUCTIONS

### HOW TO PLAY:

Once the unit is turned on, the game will light-up. The timer on the game will begin once the sensor under the rim is triggered. Once the game begins the unit will score until the time runs out (after 60 seconds). During this time each player will shoot at their rim. Once the time runs out, the game is over and the player with the highest score will be the winner!

### Note:

We welcome you to use your own balls on this set. Please note, the scoring sensor may not pick up darker colored balls.

Both players can score 2 points per shot during the first 45 seconds. When there is 15 seconds remaining each player can score 3 points per shot.
